PROFILE STATEMENT

A student of mathematics and computer science who is proficient in full stack web development, has a solid grasp of how computers operate, and is able to create mathematical models that make data analysis easier. This, in turn, ensures better event approximation and provides insight into future events.

EDUCATIONAL BACKGROUND

2019-date | Jomo Kenyatta University of Agriculture and Technology

BSc. Mathematics and Computer Science

2015-2018 | Nakuru Boys high School

Kenya Certificate of Secondary Education

ADDITIONAL TRAINING AND QUALIFICATIONS

February - present, 2022 | African Leadership X | full stack software engineer program

Sept-October, 2021 | cognitivclassAI | Introduction to Data science

July-August, 2021 | Freecodecamp | Responsive Web Development

PROJECTS

Portfolio here

TECH STACK
JavaScript | Node.js | React.js

Database | MongoDB | MySQL

Python | Flask

PERSONAL MOTIVATION

I enjoy challenging myself intellectually and creatively, and I enjoy thinking outside the box.
I spend all of my leisure time playing video games, which calms my anxieties and makes me happy.
